

OAKWOODE

HIGH QUALITY TIMBER AND MORE

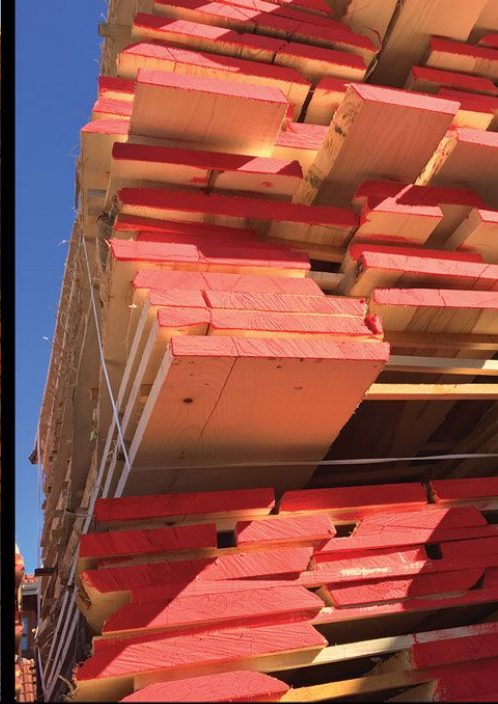

ABOUT US

Oakwoode Trading S.R.L started first as Oakwoode UK Limited in 2003 as a commodity trading house and in 2007 we established Oakwoode Trading S.R.Lin Ploiesti, Prahova, Romania specialized in high quality Timber. in 2012 we added "Fine Forest & Timber S.R.L" to expand our production line in Romania and in 2017 we established our representation in Zagreb, Croatia.

We currently operate from Zagreb, Croatia and Focsani, Vrancea, Romania; Being in the heart of Europe gives us the privilege of shipping through different means i.e. land, rail, containers or general cargo vessels.

In addition to supplying to Middle East, Far East and All Europe, we also provide production/cutting service through our facility in Romania and exporting service to all kinds of Timber products.

Our finest asset is man power, being a family business for more than 15 years our experience has been shared and developed through every generation. We believe in team work and organization which help us give priority to every client; at the same time assuring the best quality and on time delivery.

OUR PRODUCTS

BEECH

Beech is a hard, strong and heavy wood. It has a fine, tight grain and even texture. Beech wood is very light in colour and has a high shock resistance. Its hardness, wear-resistance and also excellent bending capabilities make this wood a mainstay for many Worldwide woodworkers.

Thickness

Available 25, 32, 38, 50, 60, 70, 80 mm

Edged

AB quality - long, short and super-short

Un-edged

AB, ABC, BCD, CD quality 2000 mm and longer

Specs

Available steamed, un-steamed, air dry and KD

OAK

European White Oak (*Quercus Robur & Petraea*) is one of the world's best hardwood with excellent strength properties, beautiful structure and warm appearance. mostly used in cabinetry, furniture, interior trim, flooring, boatbuilding etc.

Grades

Different quality grades AB and ABC

Edged

Length long and short

Un-edged

Length 2000 mm and up

Specs

Air dry and KD - Elements also available

ASH

European white ash is valued for its strength, hardness, heavy weight, and elasticity. It is used in furniture, doors, veneer & boats. It produces good results with hand or machine tools. Responds well to steam bending. Glues, stains, and finishes well. White ash is the most valuable timber tree of the various ashes.

Grades

Different quality grades AB and ABC

Edged

Length long and short

Un-edged

Length 2000 mm and up

Specs

Air dry and KD - Elements also available

SPRUCE

Spruce is one of the most common softwoods used in construction projects. The primary applications are in framing and construction. Spruce wood offers an even texture that makes it appealing as a building material. It's also a lightweight wood, which makes it versatile for low-stress applications.
